

## 6080 Z SHOCK COMPATIBILITY

### What size shock is compatible with the SCOR 6080 Z?

The SCOR 6080 Z is designed for a 230 mm eye-to-eye shock with a 65 mm stroke, resulting in 180 mm of rear travel. Riders preferring less travel can opt for a shock with a 57.5 mm stroke, providing 160 mm of rear travel.

### Can I run a coil shock on the SCOR 6080 Z?

Absolutely. The SCOR 6080 Z is designed to be able to work equally well with either an air or coil shock, giving you the choice as to how you stay sprung. The frames are designed to accommodate coil shocks from Fox and RockShox, Öhlins and EXT will fit as well. Before buying a coil shock from another brand you'll want to check clearances.
